Subject: [FACULTYANDSTAFF] Fwd: Let's talk seismic blasting in Charleston!

Sent: Fri 9/5/2014 10:49 AM

Phil,

Big Oil appears to be spreading a lot of misleading information about seismic airgun blasting and oil and gas drilling off the coast of South Carolina, so we're setting the record straight!

Join us for a public forum in Charleston on **Tuesday, September 16, 6:30 p.m. at the International Longshoremen's Association Hall** to learn what offshore drilling and seismic blasting in the Atlantic could really mean for coastal communities, fish and marine wildlife.

**Where:** International Longshoremen's Association Hall, 1142 Morrison Drive, Charleston, SC 29403

*Free parking available onsite*

**When:** Tuesday, Sept. 16 at 6:30-8 p.m.

**Hosts:** Oceana and the South Carolina Coastal Conservation League (SCCCL)

**Speakers:** Marine scientists and experts as well as representatives from Oceana and SCCCL

[RSVP today!](#)

Our government is rushing to turn an area off the East Coast twice the size of California into a blast zone – threatening the health of regional fisheries, potentially killing or injuring more than 138,000 dolphins and whales, and risking South Carolina's fishing and tourism jobs that depend on healthy oceans.

**Learn More about Seismic Airgun Blasting**

**The First Step to Offshore Drilling: SEISMIC AIRGUN BLASTING**  
The process used to determine the location of oil and gas deposits

**What:** Public forum on seismic airgun blasting and offshore drilling off South Carolina's coast  
**Where:** Charleston, SC
